Vision

The Aylmer Soccer Club is a place of growth, success and collective pride for all its stakeholders. Its governance, management and athlete development choices must reflect best practices in these areas. The respect of these objectives will make the club a model in the Canadian soccer community. Based on its mission, the club must be an important social player in the community and a vehicle for integration for all its members.

TECHNICAL COMMITTEE

VALUES

FUN: Regardless of the level of practice, all members of the club must have fun.

EXCELLENCE: All stakeholders (board members, coaches, volunteers, parents, athletes) have the duty to fully invest themselves in their role.

OPENNESS: Involvement in a team sport broadens one's horizons and leads to an understanding and acceptance of each other's differences.

TEAM SPIRIT: The friendships forged on the field are among the healthiest and strongest relationships there are. Victory is collective and so is defeat. The collective sublimates the individual by bringing him to surpass himself.

RESPECT: Self-respect begins with respect for others (e.g., coaches, partners, opponents, referees) and respect for the rules (of the club, the group, the game).

HUMILITY: In a team sport, we always find a better opponent or teammate than ourselves. It is important to remain humble in victory and dignified in defeat. Humility is one of the driving forces of lifelong learning.

EXEMPLARITY: Each member must at all times convey the image and values of the club in a positive manner.
